

“Filling in the Gaps of Swiss History”

Wondering how the Mennonite immigrants got to the immigrant house near Moundridge? Local historian Brian D. Stucky continues to work at solving the puzzle of the journey in Kansas.

Bethel College graduate, artist, author, Brian teaches Art and Photography in the Goessel School system. He has taught for 35 years and coached sports for 28 years. Brian is active in church life at Alexanderwohl Mennonite Church. He has several historical interests and has published numerous articles and photos. Brian’s current area of historical interest is pinpointing pioneer trails in Harvey, Marion, and McPherson Counties. He is working toward a book on that subject.
